

## HMT Newsletter

---

Dear Friends,

A Ke Ma Shi Te, O Me De To Go Zai Ma Su  
(A Happy New Year!)

Thank you for your business in 2015. For HMT, it was a very successful year where we met many new researchers and worked with many diverse projects. From basic studies to clinical trials, our services were able to provide significant data covering many types of basic research, biomarker discovery and product development. The number of publications in metabolomics is increasing and expected to reach a record high. In 2015, our leading biomarker plasma metabolite, PEA, was patented in US, Japan and China and represents a major advancement in clinical validation for Major Depressive Disorder treatment. Our name recognition has increased in the European market this past year and we made a lot of new friends in Europe as we continue to expand our marketing and reputation. In 2016, we will continuously improve our unique technologies to support your needs. New in 2016 look for us to release our latest news and advancements on our website, SNS and e-newsletters and look for application seminars and visits in your region. Let us know if you would like us to visit your facility or provide more details on what we have to offer. As always, please share our newsletters and capabilities with your peers and co-workers.

Sincerely yours,

Tsutomu Hoshiba  
CEO  
Human Metabolome Technologies America
